

Objective:

Aspiring technology professional with a strong foundation in Java, Python, Object-Oriented Programming, and Data Structures & Algorithms. Skilled in full-stack web development, cross-platform mobile application development, and data science using React.js, Node.js, Express.js, MySQL, Python, Pandas, Scikit-learn, and Power BI. Passionate about building practical software solutions and solving real-world problems through continuous learning.

Education:

- **Bachelor of Technology in Artificial Intelligence and Data Science** | Dr. Mahalingam College of Engineering and Technology, Pollachi | 2023-2027 | CGPA: 8.7/10 (Till 5th Semester)
- **HSC** | Govt. Girls. Hr. Sec. School, Periyakulam | 2022-2023 | 81%
- **SSLC** | Govt. Girls. Hr. Sec. School, Periyakulam | 2020-2021

Skills:

Technical Skills

- **Languages:** Java, Python, SQL, JavaScript, C, Dart
- **Frameworks:** React.js, Node.js, Express.js, Flutter, React Native
- **Databases:** MySQL, Firebase Firestore
- **Data Science:** Pandas, NumPy, Scikit-learn, Power BI
- **Core Skills:** OOP, Data Structures & Algorithms, DBMS, REST APIs, Git
- **Tools:** VS Code, IntelliJ IDEA, Android Studio, Postman

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability

Projects:

Life Auto-Pilot System | Flutter, Dart, Material Design, OOP, State Management

2026

- Developed an AI-inspired productivity app that generates optimized daily schedules based on task priority, deadlines, and available time.
- Implemented dynamic task rescheduling, priority-based task management, and progress tracking using offline local storage.
- Applied Flutter best practices and object-oriented programming to build a responsive, user-friendly mobile application.

EduBot – Educational Platform | React, Firebase Authentication, Firestore

2025

- Developed an AI-powered learning platform supporting 12+ engineering subjects with personalized quiz generation and real-time progress tracking.
- Integrated Firebase Authentication and Firestore to enable secure, real-time data management, improving student engagement through a responsive UI.

AI Inner Voice – AI Conversational Assistant | Python, Hugging Face, Speech Recognition

2025

- Built an AI conversational web application integrating speech recognition and natural-language response generation using Hugging Face models.
- Designed interactive interfaces and improved response quality through iterative usability testing and prompt optimization.

Internship Experience:

Software & Data Analytics Intern | Accent Techno Soft (ATS), Coimbatore, Tamil Nadu

2025

- Developed Python applications using Pandas, NumPy, and Scikit-learn to preprocess, clean, and analyze 4 real-world datasets comprising 5,000+ records.
- Performed Exploratory Data Analysis (EDA) and generated automated analytical reports and visualizations that improved data quality and surfaced key trends.
- Collaborated with mentors in an Agile-style development environment, contributing to debugging, testing, and code optimization.

Certifications & Achievements:

AWS Cloud Foundations

2026

Introduction to Data Science – Infosys Springboard

2026

Python Libraries for Data Science

2025

Solved 110+ Data Structures & Algorithms problems on LeetCode

2025

HackerRank: 5★ Java | 3★ Python

2025

Extracurricular Activities:

- NSS Volunteer (2024 – Present) | Youth Red Cross Member (2023 – 2024)
